

Art!

Creativity is critical in development and Art is a great outlet! It allows the participant to embrace their imagination, expression, self fulfillment and connection. For an individual who might have underdeveloped communication, sensory integration challenges, disruptive behaviours and a lack of focus, which can inhibit their ability to learn and engage, our Art Crazy program offers a safe opportunity to overcome these difficulties and take pride in a new skill.

Each session will consist of one individual art project and one group art project with a different medium (paint, clay, stencils, stamping etc.). Each participant will share their individual artwork and listen to another participant share. Then a sensory break/free time with the art materials at the end of the session.
