

LEGO Builders

Play is one of a young child's most powerful cognitive and social learning tools. Building these skills in young children with special needs, will maximize their capacity for positive interactions and overall recreational and social engagement. In our [Just for Kids](#)' unique **RecreACTIVE LEGO Builder's** program, there is an opportunity to improve social skills and play skills. Playing with these building blocks, offer a highly routine, repetitive, structured form of play. During our play therapy sessions, our group activities will be designed around the use of LEGO to help children gain skills in both verbal and non-verbal communication, sharing, turn taking, collaboration, and other social skills.
