RecreACTIVE

Therapeutic Recreation Programs

Creature Creations Ages 5-12

Creativity is critical in development and Art is a great way for creative expression. It allows the participant to embrace their imagination, self fulfillment and connection. For an individual who might have underdeveloped communication, sensory integration challenges or a lack of focus which can inhibit their ability to learn and engage.

Children will be able to choose an animal they're interested in learning more about and will be given the opportunity to make several different art forms to represent that animal, including a: portrait, sculpture, 3-D model, and a habitat.

Children will also practice essential skills like following directions, sharing materials, fine motor skills, and social skills while interacting with peers and creating some amazing works of art!

**YMCA Collingwood
Children's Treatment Network**

200 Hume Street Collingwood, ON
