Therapeutic Recreation Programs

Lego Builders **Ages 6-10**

Play is one of a young child's most powerful cognitive and social learning tools. Building these skills in young children with various needs will maximize their capacity for positive interactions and overall recreational and social engagement.

In our **LEGO Builder's** program, there is an opportunity to improve social skills and play skills. Playing with these building bricks offer a highly routine, repetitive, structured form of play. During our play therapy sessions our group activities will be designed around the use of LEGO to help children gain skills in both verbal and non-verbal communication, sharing, turn taking, collaboration, and other social skills.

Our programs are integrated and developed for groups of children and youth of all abilities.
